# DAILY HEALTH BOOST COLLAGEN CHEWS

-  BONES & JOINTS
-  DIGESTION
-  SKIN & COAT
-  CLEAN TEETH

## OUR COLLAGEN STORY

At Barkworthies, we know that wholesome nutrition is essential to a dog's health and happiness. That's why we created Daily Health Boost Collagen Chews; made from naturally, collagen-rich beef which promotes mobility, supports a healthy skin & coat and boosts digestive health. Our high quality standards ensure every chew is nutrient-rich and deliciously satisfying, for a healthy and happy dog, from the inside out.

## COLLAGEN BENEFITS

BONES & JOINTS

By adding Collagen to your dog's diet, you help to support the longevity of their joint and bone health.

DIGESTION

Collagen aides in digestion by breaking down proteins and soothing agitated areas of the gastrointestinal track.

SKIN & COAT

Collagen makes up to 70% of the protein in your dog's skin. It provides a healthy, moisturized dermis as well as helping to provide a soft, shiny coat, and strong nails.

CLEAN TEETH

When a dog chews on a treat or chew, the chewing action helps to loosen tartar and plaque from the dogs teeth.

## WHERE DOES BARKWORTHIES COLLAGEN COME FROM?

We harvest our collagen directly from the corium layer, which is made almost entirely of collagen. We simply cut the corium away and slow bake to retain the nutrients.

# COLLAGEN & COLLAGEN PLUS

## Flavors and Proteins:

We've taken our delicious and nutritious collagen sticks and added even more benefits and taste for your dog to enjoy. We offer several different protein and flavor options such as beef, chicken, and peanut butter to entice your dog to chew longer.

## Shapes and Sizes

Our collagen shapes are an all-around fun chew! Available in braided, curly, and ring-shapes, these collagen chews will last longer than a typical stick. The additional texture also helps to support their dental health while they chew, gently massaging the gums and scraping away plaque and tartar from the teeth.

## Multi-packs and Singles:

Barkworthies offers convenient package sizes- both multi-pack and single offerings. This allows the customer the leisure of trying out an item before moving on to a larger package size.
